

Inclusion Statement

West Bromwich North CoOP will ensure that all our extended services and activities are available to pupils, young people and adults and that access to these services is not discriminatory in any way. We will as far as is reasonably practicable, provide services and activities for children, young people and adults with disabilities and will prevent any such discrimination related to such disabilities.

Each school working within the CoOP has planned strategically to increase access to their premises, curriculum provided and written materials. These duties and responsibilities will be taken into account when planning any educational associated activities outside of the school day.

We will work under the statutory requirements of the Disability Discrimination Act and our own Child Protection, Complaints, Data protection and Health & Safety procedures when providing activities/ events and services within the CoOP.

This statement will be reviewed annually.
